

2026–2027 ACADEMIC YEAR

Student Semester Reset Planner

Start the semester organized. Stay that way
through finals.

A full academic-term system —
from syllabus week to the last exam.

FORM & FERN

Semester Setup

Do this during the first week, while every syllabus is still fresh.

- ☐ Listed every class you're enrolled in for the term
- ☐ Added the add/drop deadline to your calendar
- ☐ Added the withdrawal deadline to your calendar
- ☐ Added each class's final exam date and time
- ☐ Noted which classes have mandatory attendance policies
- ☐ Noted which classes allow laptops/recording and which don't
- ☐ Bought or rented all required textbooks and materials
- ☐ Set up folders (physical or digital) for each class
- ☐ Blocked out a realistic weekly study-time estimate per class

Class Schedule Tracker

One row per class — fill in as you confirm each syllabus.

-
- | | |
|--------------------------|--|
| ☐ | Class name, course number, and credit hours |
| ☐ | Professor or instructor name and contact info |
| ☐ | Office hours location and times |
| ☐ | Class meeting days, times, and room/link |
| ☐ | Grading breakdown (% for exams, homework, participation) |
| ☐ | Late work and attendance policy in your own words |
| ☐ | TA or tutoring contact if the class has one |
| ☐ | Where lecture notes/recordings get posted, if applicable |
| ☐ | One thing you want to remember about this professor's expectations |

Assignment & Deadline Tracker

A running list — add to it as new assignments get announced throughout the term.

-
- | | |
|--------------------------|---|
| ☐ | Assignment name and which class it's for |
| ☐ | Due date and time (note the exact time zone if it's online) |
| ☐ | Estimated time needed to complete it realistically |
| ☐ | Whether it's individual or group work |
| ☐ | Submission method (portal, email, in-person, etc.) |
| ☐ | Marked whether it's been started, in progress, or submitted |
| ☐ | Noted the grade or feedback once returned |
| ☐ | Flagged anything that overlaps with another deadline |
| ☐ | Reviewed this list at the start of each week |

Exam Prep Planner

Start this 2-3 weeks before a big exam, not the night before.

- ☐ Confirmed the exam format (multiple choice, essay, mixed, open-book)
- ☐ Confirmed what material is covered — which chapters/weeks
- ☐ Gathered notes, slides, and readings into one place
- ☐ Made a study schedule working backward from the exam date
- ☐ Identified your weakest topics to prioritize first
- ☐ Found or made practice questions to test yourself
- ☐ Scheduled a study group or office-hours visit if needed
- ☐ Planned what to eat and how to sleep the night before
- ☐ Packed everything you need for exam day the night before

Weekly Study Routine Builder

A consistent rhythm beats last-minute cramming — sketch out a realistic weekly plan.

- ☐ Blocked out set study times for each class during the week
- ☐ Identified your most focused hours and protected them
- ☐ Picked a consistent study location that actually works for you
- ☐ Scheduled short breaks so study blocks don't burn you out
- ☐ Set a weekly time to review notes from that week's classes
- ☐ Built in buffer time for unexpected assignments
- ☐ Scheduled at least one full rest day or evening per week
- ☐ Noted which study method works best for which class
- ☐ Reviewed and adjusted the routine after the first two weeks

Reading & Assignment List Tracker

Track required readings separately from graded assignments so nothing slips through.

- ☐ Title or chapter and which class it's assigned for
- ☐ Due date or the class it needs to be done before
- ☐ Estimated pages or time to complete
- ☐ Marked whether it's been read, skimmed, or not started
- ☐ Noted key takeaways for later review before exams
- ☐ Flagged anything you'll want to reference in a paper later
- ☐ Noted any readings that were unexpectedly difficult
- ☐ Checked whether a reading has a companion quiz or discussion post
- ☐ Reviewed completed readings before the related class discussion

Campus Resources Checklist

Know where these are before you actually need them, not during a crisis.

- ☐ Location and hours of the tutoring or academic support center
- ☐ Location and hours of the writing center, if available
- ☐ Health center location, hours, and how to make an appointment
- ☐ Counseling or mental health services contact info
- ☐ Financial aid office contact for billing or aid questions
- ☐ Career center contact for internships or resume help
- ☐ Library hours and how to reserve study rooms
- ☐ Campus safety or escort service contact, if offered
- ☐ Advisor or department contact for schedule questions

Semester-Specific Budget Planner

Costs that show up once a term, not every month — plan for them up front.

- ☐ Textbooks and course materials cost, bought or rented
- ☐ Meal plan or grocery budget for the semester
- ☐ Housing cost or rent for the term, if separate from housing plan
- ☐ Transportation — parking pass, transit pass, or gas budget
- ☐ Lab fees, course fees, or supply costs specific to certain classes
- ☐ A small buffer for printing, copies, or unexpected school costs
- ☐ Any planned big purchases (laptop, supplies) for the term
- ☐ Checked for financial aid or scholarship disbursement dates
- ☐ Set a rough weekly spending target based on the above

Midterm Check-In

Pause around the midpoint of the term to see how things are actually going.

- ☐ Reviewed grades so far in each class
- ☐ Identified which class needs the most attention going forward
- ☐ Noted whether your study routine is actually being followed
- ☐ Checked in on your energy levels and overall workload
- ☐ Considered whether office hours or tutoring would help any class
- ☐ Reviewed the add/drop and withdrawal deadlines again if relevant
- ☐ Noted one thing that's working well so far
- ☐ Noted one thing you want to change for the second half
- ☐ Gave yourself credit for making it to the midpoint

Finals Week Survival Checklist

The final stretch — protect your basics so you can actually perform well.

- ☐ Confirmed every final exam's date, time, and location
- ☐ Made a study schedule covering all finals, prioritized by weight
- ☐ Protected sleep — cramming all night rarely helps as much as it feels like it will
- ☐ Planned simple, ready-to-go meals for the week
- ☐ Scheduled short breaks and at least one thing you enjoy each day
- ☐ Reached out for help early if you're struggling with any material
- ☐ Packed exam-day materials (ID, calculator, pencils) the night before
- ☐ Checked each exam's allowed materials policy in advance
- ☐ Planned something to look forward to once finals are over

Semester Wrap-Up Reflection

Once grades are in, take a few minutes to reflect before diving into the break.

- ☐ What class or topic surprised you most this semester?
- ☐ What study habit worked better than expected?
- ☐ What would you do differently next semester?
- ☐ What's one win you're proud of, academic or otherwise?
- ☐ What campus resource do you wish you'd used sooner?
- ☐ How did your workload compare to what you expected going in?
- ☐ What relationship (professor, classmate, advisor) mattered most this term?
- ☐ What are you most looking forward to next semester?
- ☐ What's one thing you want to remember about this semester?

Next Semester Prep Checklist

A few things to handle before the break ends, so next term starts smoother.

- ☐ Registered for next semester's classes
- ☐ Checked next term's key dates (start, add/drop, finals)
- ☐ Reviewed which textbooks or materials to sell, keep, or buy new
- ☐ Followed up on any incomplete grades or grade disputes
- ☐ Scheduled a check-in with your academic advisor if needed
- ☐ Noted any scholarship or financial aid renewal deadlines
- ☐ Backed up any files, notes, or work you want to keep
- ☐ Planned how you'll apply this term's lessons to the next one
- ☐ Set one specific goal for next semester
